Computer Science and Engineering

VIT Bhopal University | CSE0001 – Digital Literacy

🎖 Student Digital Ambassador

AGENDA

01 Digital Literacy Awareness Infographic

02 Building Your Student Digital Portfolio

03 Exploring Coding & Collaboration Platforms

04 Email Etiquette & Professional Communication

05 UPI Fraud – Cybercrime Awareness Case Study

06 Prevention Checklist & Digital Safety

07 Digital Ethics & Responsibility

TASK 1 · MODULE 1

Digital Literacy Infographic

Tool Used: Canva

Topics Covered in the Infographic

- What is Digital Literacy and why it matters
- Essential digital tools for B.Tech students
- Safe internet practices and password hygiene
- Professional online presence (GitHub, LinkedIn)
- Email etiquette in academic & professional life

Reflection: Canva made it easy to arrange icons and color-coded sections. The most interesting part was realising how interconnected all digital literacy skills really are.

01

What is digital literacy and why it matters

- Ability to find, use, and evaluate digital information effectively
- Skills to stay safe, think critically, and communicate online
- Foundation for every modern academic and professional career

02

Essential digital tools for B.Tech students

- Google Workspace — Docs, Sheets, Slides, Forms, and Drive
- GitHub (code), Canva (design), HackerRank (coding practice)
- VS Code, Zoom, LinkedIn, Kaggle — your essential student toolkit

03

Safe internet practices & password hygiene

- Use 8+ character passwords — mix letters, numbers, and symbols
- Enable Two-Factor Authentication (2FA) on every account
- Avoid phishing — always verify links and the sender's identity

04

Professional online presence (GitHub & LinkedIn)

- GitHub — host your projects and write a profile README
- LinkedIn — add your education, skills, and certifications
- Keep all profiles professional, consistent, and regularly updated

05

Email etiquette in academic & professional life

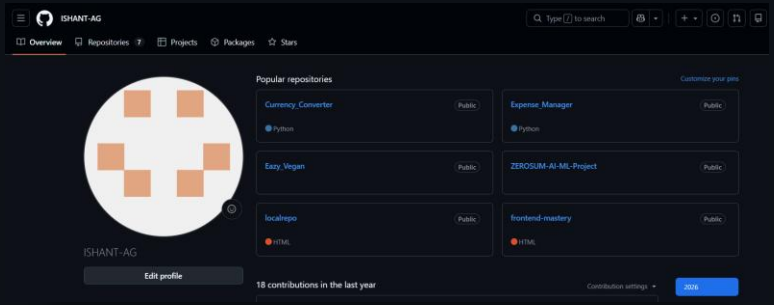
- Always use a clear, specific subject line for every email
- Formal greeting, structured body, and a polite sign-off
- Proofread before sending — tone matters as much as content

TASK 2 · MODULE 2

Building Your Digital Portfolio

GITHUB — Platform of Choice

GitHub is the world's leading platform for hosting code and building a developer identity. For a CSE student, it acts as a living resume that grows with every project you commit.



1 Create Account

Sign up at github.com with college email. Choose a professional username.

2 Profile README

Create a repo named after your username → add README.md with name, branch & goals.

3 Upload Projects

Add Python programs, assignments & mini-projects — each with a description.

4 Pin Best Work

Go to Profile → Customize Pins → select 4-6 top repos for first impressions.

TASK 3 · MODULE 3

Coding & Collaboration Platforms

PART A · HackerRank

Coding Practice Platform

- Created a HackerRank account with college email
- Completed 'Solve Me First' — beginner challenge
- Solved the Python Introduction skill test
- Earned a Python badge upon completion

PART B · Google Forms Quiz

Digital Literacy Awareness Quiz — 5 Questions

Q1. What does 'phishing' mean? (MCQ)

Q2. Name a safe password practice. (Short Answer)

Q3. Which is NOT a coding platform? (MCQ)

Q4. What is 2FA? (MCQ)

Q5. Define Digital Footprint. (Short Answer)

Form link added to README.md | Response Google Sheet linked

TASK 4 · MODULE 4

Email Etiquette & Communication

EMAIL 1 — Assignment Extension

Subject:

Request for Assignment Submission Extension

Greeting:

Dear Professor [Name],

Body:

I am writing to request a 3-day extension on the CSE0001 project submission due [date], due to [reason]. I assure you the delay will not affect quality.

Sign-off:

Respectfully, Ishant Agrawal | 25BCE11028 | B.Tech CSE

EMAIL 2 — Internship Inquiry

Subject:

Application for Summer Internship Opportunity

Greeting:

Dear Hiring Manager,

Body:

I am Ishant Agrawal, a 1st-year B.Tech CSE student at VIT Bhopal. I wish to express my interest in a summer internship. I am eager to contribute and learn.

Sign-off:

With regards, Ishant Agrawal | GitHub: [link] | LinkedIn: [link]

Key Rules: Clear subject line · Professional greeting · Concise body · Formal sign-off · Proofread always

TASK 4 · MODULE 4

Social Media Do's & Don'ts

for College Students

✅ DO

- Keep your profiles professional & updated
- Share learning achievements and projects
- Engage respectfully with peers & professionals
- Use privacy settings to control your audience
- Think before posting — digital footprints are permanent
- Credit original creators when sharing content

❌ DON'T

- Post offensive, hateful or discriminatory content
- Share personal information like phone/address publicly
- Engage in cyberbullying or trolling
- Post during exams or college events carelessly
- Spread unverified news or rumors
- Use institutional email for personal social sign-ups

Scenario: A student posted anger about a professor publicly — it went viral, damaging their internship prospects. Lesson: always resolve issues privately.

TASK 5 · MODULE 5

Cybercrime Case Study

UPI / Online Payment Fraud

Case Scenario:

Riya, a 19-year-old college student in Bhopal, received a WhatsApp message claiming she had won ₹50,000 from an online quiz. The sender asked her to pay ₹199 via UPI to 'unlock' her prize. After paying, she was asked for more amounts under various pretexts. Within an hour, ₹12,000 had been drained from her account. There was no prize — it was a scam.

How UPI Fraud Happens — Step by Step

1

Bait

Victim receives a fake prize/job/refund message via WhatsApp, SMS or social media.

2

Urgency

Fraudster creates panic: 'Act now or lose the offer' to bypass rational thinking.

3

Small Payment

A small fee (₹99–₹500) is demanded via UPI to 'process' the reward.

4

Escalation

After payment, more fees are invented. Victim loses confidence and pays repeatedly.

⚠ **Typically targeted: College students, senior citizens, job seekers, and anyone expecting refunds or rewards online.**

TASK 5 · MODULE 5

Stay Safe Online — Prevention Checklist

- ✓ Never pay to receive a prize, job or reward — legitimate offers are free.
- ✓ Verify the sender's identity before acting on any UPI request. **UPI**
- ✓ Enable UPI transaction limits and daily caps in your banking app. **UPI**
- ✓ Use strong, unique passwords for all banking and UPI apps.
- ✓ Enable 2FA (Two-Factor Authentication) on every financial account.
- ✓ Do not click links received via WhatsApp/SMS — go directly to official websites.
- ✓ Check privacy settings on all social media — limit who sees your data.
- ✓ Report cyber fraud immediately on cybercrime.gov.in or call Helpline 1930.

🚨 **Report Cybercrime: cybercrime.gov.in | Helpline: 1930 (24×7 Free)**

MODULE 6

Digital Ethics & Responsibility

Honesty & No Plagiarism

- Do not copy others' work without credit
- Use AI tools to learn, not to replace your own thinking
- Cite all sources and external references

Protect Privacy

- Keep personal data secure at all times
- Take permission before sharing others' content
- Do not misuse someone else's data

Respect Others Online

- Use polite, inclusive language always
- Avoid hate speech or offensive comments
- Respect different opinions and cultures

Avoid Tech Misuse

- Do not hack, crack or pirate software
- Never spread fake news or misinformation
- Do not use technology to cheat in exams

"With great digital power comes great digital responsibility."

THANK YOU
